

IBM Lotus Notes and Lotus Domino 8 software— a smarter way to work.

Be more effective with intelligent e-mail and calendaring

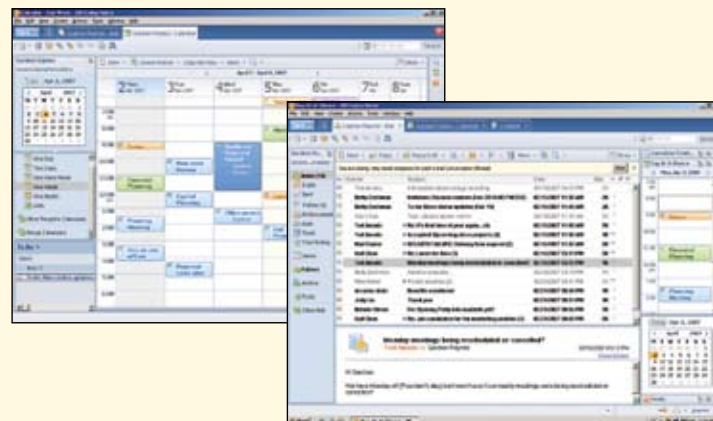

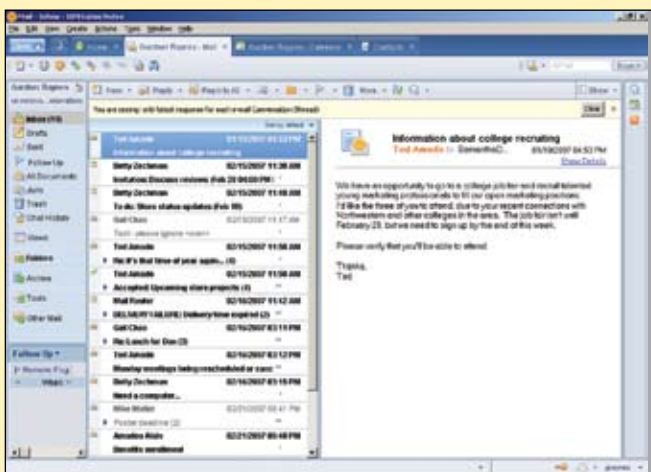

Intelligent e-mail addressing finds people you collaborate with frequently.

- Conversation mode—Gather and review e-mail threads easily.
- Collaboration history—View your collaboration history with specific people.
- Mail recall—Retrieve certain messages sent in error or to the wrong person.

Enjoy work more with a new intuitive and powerful user interface

Lotus Notes 8 software's user interface allows you to navigate features while staying focused and productive with:

- New "Open" button for fast access to most often used applications.
- New sidebar that displays critical information and alerts.
- Context sensitive toolbars and customizable view preferences.
- Omnipresent search center for e-mail, calendar, the Web and your desktop.

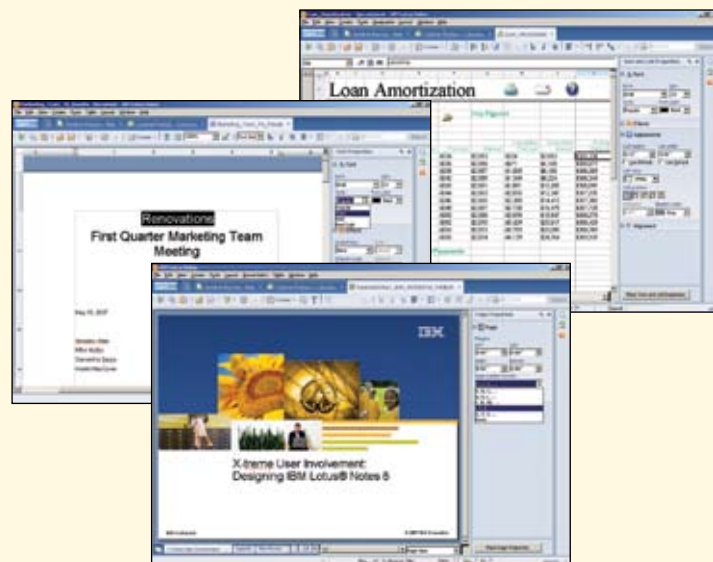

Improve productivity with all your work in one place

An open standards-based, integrated office productivity suite is integrated with Lotus Notes 8 software and included at no additional charge.

- Word processing, spreadsheets and presentation applications
- Support for OpenDocument Format (ODF), Microsoft® Office and IBM Lotus SmartSuite® technology
- Ability to export documents to Adobe® Portable Document Format (PDF)

New collaboration features include:

- Integrated office productivity tools.
- Composite applications.
- Support for activity-centric computing.
- Really Simple Syndication (RSS) and Atom feeds.

Develop and deploy composite applications rapidly

Quickly assemble components of applications into customized mash-ups—composite applications—without writing extensive code. Lotus Domino software supports an open application infrastructure to deploy and provision composite applications in Lotus Notes 8 software. Extended Web services allow Lotus Domino applications to call other Web services.

Work where you want

Access your databases and collaborative tools whether you're connected to the network or working offline with Lotus Notes replication technology. Work offline by replicating e-mail and applications with data, logic and security controls.

Choose built-for-business, security-enhanced, collaboration software

More than 130 million people have used Lotus Notes and Domino software in both small and large organizations worldwide. Lotus Notes and Domino 8 software runs on a wide variety of operating systems—offering you a choice of client and server platforms. A security-rich environment keeps you focused on your business, not on technical issues. And Lotus Notes and Domino 8 software is designed to be easy to use and to adapt as your business needs evolve.
